PROFILE

I'm an 18-year-old programmer from Portugal with a strong passion for tech. I recently completed a programming course with a perfect final project score (20/20). Growing up, I loved games, solving problems, and exploring hardware. Although school wasn't always smooth, my interest in technology pushed me toward coding-and I haven't looked back since!

INTERNSHIP EXPERIENCE

Data analyst/Programmer, *PROTAME*   04/2024 – 06/2024
